Education

ETH Zurich 2025 – Present
Bachelor of Science in Computer Science Zurich, CH

Kantonsschule Wohlen 2020 – 2024
Gymnasium (Focus: Applied Mathematics/Physics) Aargau, CH

Experience

ETH Zurich 2026 – Present
Teaching Assistant for Discrete Mathematics

Team RACKlette 2026 – Present
Member

Swiss Armed Forces 2024 – 2025
Military Service (Technical Sergeant)

- Instructed 20+ soldiers in technical procedures and equipment usage.
- Coordinated group tasks and supervised training exercises.
- Developed technical planning for the whole unit.

Projects

thislandscapedoesnotexist.ch

- Implemented and trained a Deep Convolutional GAN (DCGAN) on a publicly available dataset of 4000 landscape images.
- Built a browser-based inference pipeline using TensorFlow.js, enabling real-time image generation without server-side compute.
- Designed preprocessing and training workflow for large image datasets and optimized model size for web deployment.

Open Source

NixOS github.com/NixOS/nixpkgs

- Maintain and update packages within the NixOS ecosystem.
- Experience with functional package management and Nix language.
- Perform code reviews and troubleshoot build failures.

Skills

Operating Systems: Linux, Windows
Programming: C, CUDA, Java, Nix, Python
Systems/Tools: LaTeX, Nix/NixOS, Git, OpenMP, Lean

Languages

Swiss German: Native
German: Native
English: C2 - Cambridge Proficiency (CPE)
